NEW PRODUCT RELEASE

NEW MICROLOGIC DEVICE SOCKETS

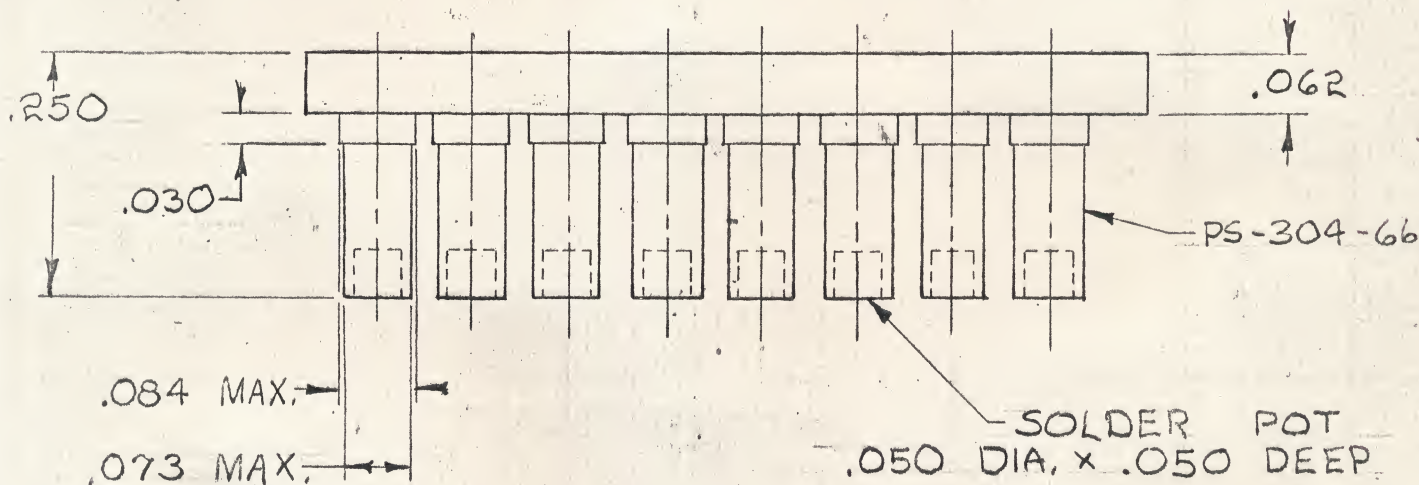

Accepts the Fairchild and other packages with up to 16 round or octagonal leads in 2 rows .300" apart with leads on .100" centers. Socket illustrated is dip-solder mounting type .875" x .450" x .250" high with mounted above board height of .3/32". The machined, gold-plated beryllium copper contacts provide a .050 x .050 rear termination solder pot. Contact life is many thousand insertion/withdrawal cycles. Chassis mounting versions identical to above but slightly longer also available. Panel material is G-10 glass epoxy laminate good to 150 deg. C continuous. Minimum lead length accepted is 1/8".

Ideally suited as a test or high quality operating socket. Availability currently 2 to 3 weeks ARO. Specify EX-780 or EX-820 for chassis mount.

MAX. RECOMMENDED PIN
 $.030$ DIA. X $.165$ LONG.
